

# Temporary Proof of Pesticide Certification Credential

Until an applicator receives a copy of their certification/registration card, they can use the following items to verify their credential:

- A copy of all passing exams scores or proof of renewal by recertification seminar credits.
- A copy of the application or renewal form provided to MDARD.
- Proof the certification/registration fee was paid to MDARD. Keep a copy of the check/money order mailed with the application or renewal form.

If a certification/registration card is not received within two months of successfully completing the above items, contact MDARD's Central Licensing Unit at [MDARD-PestCert@michigan.gov](mailto:MDARD-PestCert@michigan.gov) or 800-292-3939.
